

Start here together

A shared starting point for every committee. Capture brief answers at kickoff.

Use page 1 at kickoff; develop pages 2-4 as you work; complete page 5 at handoff.
Type into the fields or print. Use N/A where needed. Save a copy for your committee.

Keep answers brief; link extra notes in your shared folder. Save and reopen to confirm entries.

Committee

School year

Prepared by

Last updated

1 PURPOSE

Why do we exist? Who do we serve?

2 PERSPECTIVE

What worked? What was hard?

3 PEOPLE

Who is here? Who can learn the ropes?

4 PROVISION

What do we have? What do we need?

5 PLAN

What will we do? When does work begin?

6 PASS IT ON

What will help next year start well?

Before we leave

Chair / interim lead

Co-chair / learning partner, if needed

Next meeting - date, time and location / link

Communication channel

First actions - choose 2-4 concrete tasks, each with an owner and due date.

Action	Owner	Due date

People and shared wisdom

Honor experience, welcome new voices and make it easy for everyone to help.

Perspective

Capture the lessons behind the work, including advice from returning members.

What worked well, and why should we keep it?

What did not work, and what might we try differently?

People and roles

Add a roster link if you need more room. Include small, clear jobs for new volunteers.

Name / contact	Role or task	Skills / learning partner

Full roster / contact list location

How we work together

Agree on a few useful norms; revisit them as the committee learns.

How will we make decisions and handle disagreements?

How / how often will we communicate, meet and record decisions?

How will new members get a voice, a clear task and someone to learn from?

Provision

Know what exists, where it lives and what support is still needed.

Budget and resources

Record estimates first; update actual costs as work is completed. Use your budget currency.

Requested budget

Approved budget

Actual spending to date

Approval status / approver / date

Expense / resource	Estimate	Actual	Funding / source

How was this budget built? Note past costs, quotes, donations or assumptions.

Spending / reimbursement process and receipt folder

What we already have

Include supplies, equipment, relationships, vendor contacts and borrowed items.

Item / contact / resource	Location / link	Owner / access / return

What is missing or needs repair, purchase or support? Who will follow up?

Plan and deliver

Turn the purpose into clear outcomes, dates and responsibilities.

Purpose and scope - who we serve, what we own and what is outside our role

What will success look like? Choose 1-2 measures or observable results.

Planning begins

Event date(s) / active work period

Milestones and deliverables

Include approvals, volunteer shifts, communications, delivery and cleanup where relevant.

Milestone / deliverable	Owner	Due date	Done when / status

Recurring work - how requests, tasks or shifts move from start to finish

Risks / dependencies - what could block us? What is our backup plan?

Help or decision needed - from whom, by when, and who will follow up?

Pass it on

Leave the next committee a useful starting point and room for new ideas.

Wrap-up / handoff date

Incoming lead / recipient

What did we deliver? Include results against the success measures on page 4.

What worked well this year? What should the next team keep?

What did not work? What would we change or start earlier next time?

Leave a trail

Link files in the shared folder; include only what applies to your committee.

Record to leave behind	Location / link	Owner / status
Timeline, task lists and templates		
Budget, actual costs and receipts		
Inventory, bin photos and storage		
Vendor contacts and key decisions		

Open items / risks / unpaid costs - next action, owner and due date

Who is learning the role? What should they know first, and when should they start?

Main playbook folder / access contact

Handoff reviewed with / date
